In the continuing effort of the alumni to engage with their alma mater, several old students and teachers planned to organize a workshop on Experimental Techniques in Physics for students of class 9,10 and11. A mathematics workshop for teachers was also planned. Due to the tight schedule of the students and teachers, however, the workshops could not materialize.

Like in previous years, the LISAA offered to the school to organize an art competition 'to commemorate Ms. Sengupta's birthday'. The prize distribution for the students in academics, art, music and sports was planned with a lot of effort. Unfortunately, no decision was taken by the school authorities and this annual event was dropped in 2019 September.

Preparations for the 'Guru Samman' LISAA lunch were made to organize the annual event on the third Sunday of December. The lunch was, however, deferred.
